

Turner Valley - Kananaskis ride of August 8th.....

"We had wonderful weather and the trail was good with some muddy spots but no real boggy places except for a stream crossing that caused a lot of trouble and took a lot of time.

We had 12 riders all told however 2 rode only a short distance due to health problems. The other 10 completed the entire route which is about 16 kms and pretty rugged in spots. The scenery at this location as always was spectacular. We completed the route in about 4 to 4.5 hours (didn't keep track real accurately) and then had a wind up BBQ.

The winner of the cooler was Kathy Padgham with Julie Franke second (I disqualified myself) and the total at that time was about \$1320. with a couple possibles not yet committed. There is still money to be collected but we have about \$1,000 in hand. There will be pictures submitted in the next day or two for the website."

Congratulations to Kathy on her Cooler win! And thanks to all the riders and sponsors!
